AURORATM **SERIES**

LED High Bay

**Dedicated
Wattage**

UNLIMITED VALUE

The Aurora round LED high bay light offers excellent energy efficiency.

It is ideal for point-to-point replacement in retrofit projects, as the die-cast aluminium heat sink and corrosion-resistant polyester powder coated body can operate perfectly in ambient temperatures up to 50°C.

This luminaire is available with emergency options for motion and daylight sensor integration.

The die-cast aluminum heat sink operates perfectly at ambient temperatures up to 50°C / 122°F

Corrosive resistant polyester powder coat finish body.

Integrated motion and daylight sensor available

FEATURES

UL listed for safety and DLC Premium 5.1 for energy rebates.

Multiple lens at choice

Waterproof IP66 design, suitable to damp & wet location.

PERFORMANCE

LEDS	Philips Lumileds
CCT	4500~5500K (Standard) 2500~6500K (Optional)
CRI	≥70
100K	L70>120,000 Hours
⚡	100-277 VAC, 100-347 VAC, 277-480 VAC
PF	0.95 min
💧	IP66
IK	IK10
🔧	Corrosive resistant polyester powder coat finish
🌡️	Operating Temperature:-45°C to +50°C (-49°F to 122°F) Storing Temperature:-45°C to +80°C (-49°F to 176°F)
💧%	15% to 95% RH

Future is Now Smart is Easy

Ready socket for universal plug-and-play motion sensor.

Dimming Control

① With sufficient ambient light, the sensor does not switch on the lamp.

Setting
Daylight sensor: 10lux/30lux/50lux;

② With a low light level, the sensor switches on the lamp when motion is detected.

Setting
Detection sensitivity:
20%/50%/75%/100%;
Hold-time:
10s/1min/5min/10min/15min/20min/
30min/60min;

③ After hold time, the sensor dims the lamp at a low light level if no new motion trigger.

Setting
Stand-by dimming level:
0%/10%/30%/50%;
Stand-by period:
1min/30min/60min/+∞

④ After stand-by period, the sensor switches off the lamp if no motion is detected in its detection zone.

INSTALLATION

For high performance and long term reliability, the light should be installed in free air.

Hook Mounting

- Fix the hook on the light. (Clockwise rotation)
- Use an electric drill to bore a hole in the wall.
- Install the hanger to the wall.
- Fix the hook onto the hanger and complete installation.

U Bracket Mounting

- Use an electric drill to bore 2 holes in the wall.
- Set the expansion screws to the existing drilling holes.
- Install the bracket to the wall.
- Use a wrench to reverse hexagon nut adjust the requested angle.

Hook / Hang Ring

Standard U Bracket
