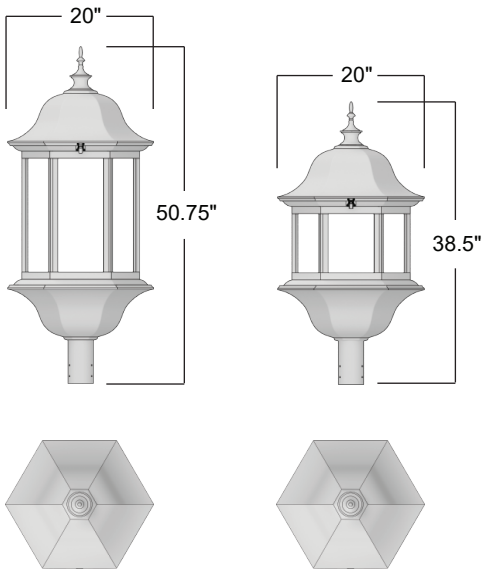
POLES & LIGHTING

AVPL SEA - Seaside Post Top Lantern



SEA-1 SEA-2

Description

An outstanding traditional design and authentic appearance that is suitable for a variety of lighting applications. The SEA series by AV Poles and Lighting is ideal for commercial, municipal, and design build lighting applications.

Materials

Cast aluminum top, bottom, cage, and fitter.

Roof optics distribution delivered by a one piece, roof mounted horizontal reflector system which eliminates uplight and provides complete cutoff.

Reflector cavity made of segmented anodized aluminum. Roof optics Type III, IV, and V horizontal are available for medium base lamps.

Medium base porcelain socket.

TCIG thermoset polyester powder coat finish is electrostatically applied at a 3.0 mil nominal thickness. A five stage metal pre-treatment process and sealer provide maximum corrosion resistance. The powder top coat is baked in excess of 400 degrees for supreme endurance.
